

# KALHD MYM Pre-Conference Public Health Data Day June 23, 2025

10:00 - 10:15 AM Welcome and Introductions

10:15 - 11:00 AM Local Health Department Academy of Science (AoS) 101  
*Understand the purpose and functionalities of the AoS Survey Library project, including how it can support local data collection efforts. Learn how to access and utilize the survey templates and resources available through the AoS project.*

11:00 - 12:00 PM Best Practices for Primary Data Collection  
*Recognize best practices for survey implementation to gather meaningful public health data.*

12:00 - 1:00 PM Lunch

1:00 - 4:30 PM Microsoft Excel Data Visualization & Storytelling  
*Mastering Microsoft Excel is essential for Public Health professionals to analyze data and drive informed decisions. Learn how to clean and format data for accuracy, create interactive dashboards, and streamline reporting processes. Enhance your presentations with effective charts and visuals that engage your audience and communicate key insights. Leverage Excel's tools to automate tasks, optimize public health strategies, and transform raw data into actionable insights. Breaks will be included into this session.*
